

A.L Group Sustainable Procurement Policy

A.L. Group recognizes that sustainable procurement is vital to minimizing our environmental impact and ensuring the long-term viability of our business. This policy outlines our commitment to responsible sourcing practices across our global operations.

This policy applies to all A.L. Group employees, suppliers, and contractors.

1. Supplier Selection:

- A.L Group will prioritize suppliers who demonstrate a commitment to environmental sustainability by:
 - Implementing an environmental management system (EMS).
 - Minimizing waste and emissions.
 - Using recycled materials.
 - Investing in renewable energy.
 - Complying with environmental regulations.
- A.L Group aspires to evaluate 100% of its material suppliers on their performance and commitment to promoting environmental sustainability by 2025.
- A.L Group will conduct comprehensive environmental assessments of potential suppliers.
- A.L Group will continue to diversify its supplier base to mitigate supply chain risks.

2. Contractual Requirements:

- A.L Group contracts with its suppliers will clearly state its environmental expectations and requirements.
- A.L Group will ask suppliers to meet environmental performance targets.
- A.L Group will collaborate with suppliers to identify and implement continuous improvement opportunities for mutual benefit, in the environmental sustainability field.

3. Sustainable Material Selection:

- A.L Group will prioritize the use of environmentally friendly materials in our filters and production process, such as recycled content and bio-based alternatives.
- A.L Group will strive to maximize the recyclability of our filter by reducing the content of materials that are not recyclable throughout the supply chain.
- A.L Group will collaborate with its suppliers on migration to sustainable materials.

4. Suppliers Assessment:

- A.L Group will monitor and evaluate the environmental performance of its material suppliers, at least once a year.
- A.L Group plan to collect the emissions data from its material suppliers in the near future.

5. Transparency and Communication:

- A.L Group will communicate its sustainable procurement policy clearly to all stakeholders, including suppliers, customers, and investors.
- A.L Group will share information about its environmental performance and supplier assessments.
- A.L Group will engage with its stakeholders on sustainable procurement issues.

6. Continuous Improvement:

- A.L Group will regularly review and update its sustainable procurement policy, at least once a year.
- A.L Group will set ambitious environmental targets for its procurement practices.
- A.L Group will invest in research and development to promote innovative and sustainable sourcing solutions, alongside inviting its suppliers to join these efforts.

A.L. Group believes that sustainable procurement is essential for a healthy planet and a thriving business. By adhering to this policy, we can minimize our environmental impact, ensure responsible use of resources, and contribute to a more sustainable future.

This policy applies to all A.L. Group employees involved in procurement activities.

By following this policy, we can demonstrate our commitment to responsible sourcing and build a more sustainable supply chain.
